
FIRE DEPARTMENT SERVICE ANNOUNCEMENT

Bulletin #32, Aqueous Film Forming Foam (AFFF) Containing PFAS
July 30, 2021

PFAS
Aqueous Film Forming Foam (AFFF)

| <u>AFFF</u> | <u>Fluorine Free</u> | <u>Contains PFAS</u> |
|--------------------|-----------------------------|-----------------------------|
| C6 AFFF | NO | <u>YES</u> |
| AR AFFF | NO | <u>YES</u> |
| C6 AR-AFFF | NO | <u>YES</u> |
| MilSpec | NO | <u>YES</u> |
| C6 MilSpec | NO | <u>YES</u> |

All types of AFFF foams contain PFAS.

Stop using them!

The Foam Exposure Committee Mission / Goal Statement

To reduce firefighter / first responder exposures to perfluorinated chemicals used in firefighting foams in order to protect their health and lives. We will determine which firefighting products contain PFAS and those that are fluorine-free. Our first responders should have immediate access to safer fluorine-free firefighting foams.
